DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-25 and 29-30, drawn to an eyewear with wireless communication, classified in class 351, subclass 158.
- II. Claims 26-28, drawn to method of manufacturing eyewear, classified in class 29, subclass 20.
- III. Claims 31 and 32, drawn to an eyewear with detachable hinge, classified in class 351, subclass 153.

The inventions are distinct, each from the other because of the following reasons:

Each of the invention, I, II, and III, recites limitations not recited in any other invention. The differing limitations make the inventions I, II and III patentably distinct from one another, i.e. a reference that anticipates or makes obvious one of the inventions I, II and III would not, by itself, anticipate or make obvious any of the remaining invention.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 2873

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
